"The smallest detail connected with your work in this matter must receive the most careful attention. Do nothing by halves. See to it yourselves that whatever duty falls to your command is performed practically, thoroughly, and efficiently performed. Spare no trouble in giving instructions to the members of your command as to their duties and as to their demeanor and deportment and their manner in handling the people they come in contact with."

"Instruct them to be under all circumstances polite and courteous to the public, to render all possible assistance wherever required, and to act promptly and with decision whenever anything occurs requiring at their hands the performance of police duty. It will not be possible to relieve them for meals, and therefore commanding officers should make some arrangements by which their commands could at the proper time and place be supplied with refreshments, such as coffee and sandwiches."

"I have issued a limited number of passes for distribution to members of the press and to others requiring them. You will show a copy of it to each and every member of your command, and it must be honored when presented. I have also issued another style of pass for members of the staff of Gen. Porter grand marshal of the parade, and these also must be honored whenever and wherever presented. I will also call your attention to the fact that, from time to time in the past, passes have been issued to physicians giving them the right of way in the streets and permitting them to cross processions. These passes have been issued under ordinance of the city and are signed by the Chief of Police. If any such are presented they must be honored by Fire Chief Bonner in the Board of Fire Commissioners and ratified by them at yesterday's meeting. No one commanding a division in the vicinity of the line of march of the parade, which takes place to-morrow, will see that the centre of the street, which they are allotted, is kept clear except when completely obstructed, and that no vehicles are permitted to occupy this space at any time during the parade."

"In view of the fact that the sides of the line of march companies in crossing will ring their apparatus bells continuously, blow steam whistles, and utilize all the noise making devices possible, it is well to keep the way. The rate of speed will be reduced to a minimum with the view of preventing accidents."

"In the event of a fire occurring on the street occupied by the parade or adjacent thereto, care will be taken not to unnecessary to take the alarm, but if it becomes necessary to take the alarm, the apparatus will be removed to the intersecting streets as soon as the fire is extinguished, and all movements will be made in such a manner as to cause the least annoyance and delay to those participating in the parade, as well as to insure safety of life and limb."

Yesterday afternoon an order was issued by the Board of Control of the Collegiate Reformers that no parade be held in New York City, not parallel in church history in this or any other city, when the reason and occasion for the order is considered.
